REPORT TO RUCKINGE PARISH COUNCIL DEC 2025

Very sadly my December report will be a revisit of my November Christmas campaign and report. So many crimes across the district that were warned about in that document have occurred. I will again run through these with council
Thankfully, that has not occurred to the best of my knowledge in your Parish.
I am driving home crime prevention advice across the whole area.
I will verbally update you at the meeting on several matters since November meeting.
Importantly I am finishing my work on my 2026 personal NHW Action Plan which I will present at the January meeting.

The most important part of this report however is to thank you all for your sound solid support for me personally and the Neighbourhood Watch work. We cannot quantify what indeed we have prevented or will prevent in the future. I never ever take that support for granted.

Also, the work you undertake to support the community and drive community cohesion and development, much of which I am sure passes over the heads of residents.

As we move into a period of uncertainty with the future of Government reorganisation, I cannot stress enough how much our working relationship and your work as a Parish Council will be the strong base for us to go forward on.
I will work to engage with PC Stuart Picton to build a similar relationship. It is pleasing also that clerk Emily has settled so quickly into this role, and she responds so quick whenever the need arises, thank you.

May I close by wishing you all and all of your families a very Happy Christmas and a Very Happy Healthy New Year. It's been an honour and a privilege to work with you in 2025 which has gone in a flash.
Same again please in 2026 where we will need to be even better.
Peter
Peter New. (Community Neighbourhood Watch)
